1986 Synopsis

COLORADO TRAIL STATISTICS FOR 1986

The Trail and Hut Committee furnished its last crew on Labor Day. In all, there were 27 trail crews this summer. There were 12 one-week crews in the Durango area: 3 weeks in Junction Creek, the southern trailhead of the Colorado Trail, 4 weeks at Hotel Draw, 2 weeks at Bolam Pass and 3 weeks at Spanish King Mine. Close to 12 miles of new and difficult trail were completed. Volunteers spent 3 weeks on the NE flank of Mt. Princeton, having all of their supplies and base camp brought in by volunteer May Frost from Longmont with her horses. Another trail crew built trail between the Chalk Cliffs and Chalk Creek and then crossed the Creek and connected the trail with the Colo. Trail that CMC had built 6 years ago. Three trail crews worked on the trail around Twin Lakes, and 2 crews built bridges - one at Tennessee Pass and one on the SW edge of Turquoise Lake. Two weeks were spent building a new loop trail by Jefferson Lake, and a two week crew maintained and built new trail in the Lake City area. We also sponsored the Savio House for boys on a crew in Lost Park, where the boys groomed and built more than a mile of trail.

New trail construction was approximately 26 miles, plus trail maintenance, plus 2 new bridges. This was our most ambitious year, with all but 0.9 mile of the projected projects for the 1986 season completed.

The crews varied from 12 to 35 members. There were approximately 450 volunteers. 45% of the volunteers were from out of state, this included 31 states, Germany, Portugal and Japan.

Our total expenses were about $13,500, of which $2,500 was budgeted in 1986 from the Colorado Mountain Club. The largest single donor was $5,000 from the Quick Foundation, with another $4,500 in donations from the Lions Club, King Soopers, CMC members and Friends of the Colorado Trail.

For the $2,500 allocated by the CMC, the members and the State of Colorado received $113,500 in labor (calculated at minimum wage). If the Forest Service had hired a crew to do the same amount of work it would have cost them about $260,000. Not a bad return for a $2,500 investment!

Each volunteer paid a $25 registration fee. This fee covered all costs of office supplies, mailings, printings and phone calls. All leaders and coordinators volunteered their time and labor. John Stonely donated his 4-wheel drive vehicle for the summer for use in the Durango area. Craig Gaskill's large van was used to haul supplies and equipment to Durango, Salida, Buena Vista, Fairplay and Lake City.
There were several medical problems due to high altitude, which the leaders handled very efficiently. Our greatest problem was the extraordinary amount of rain. Crews worked through heavy rain, rain showers and hail. There were only 3 weeks without rain or hail.

Four television stations shot documentaries or news briefs, at least half a dozen newspaper reporters did "hands on" work on the trail, all of which resulted in very well written and comprehensive stories. Randy Jacobs was out all summer gathering information for the trail guide.

Next summer there will be three main areas of work: Leadville, Copper Mountain, and Junction Creek and Molas Pass in the San Juans. Our budget needs will double over this past summer, but some of the money has already been raised. Funds will come from lottery money, the proceeds from the Governors Mansion reception in October and possibly the Coors Foundation.

We anticipate completing the last remaining segments of the Colorado Trail by September, 1987.

KUDOS TO FOREST DISTRICTS

The Friends of the Colorado Trail and the Colorado Mountain Club wish to publicly thank the Forest Service Districts that were directly involved with our 1986 summer programs. Their cooperation and help were par excellence. Thank you all!

South Platte District: Glen McNitt
South Park District, Fairplay: Jerry Davis
Salida District: Rod Lewis
Leadville District: Lee and Linda Watkins
Lake City District: Duane Harp
Animas District, Durango: Ted LeMay
Regional Office: Alinsee Lee

We've learned and worked and communicated with each other. It was a rewarding experience.

TRAIL CHANGES COURSE IN FRISCO DISTRICT

The temporary Colorado Trail maps show the trail going from the top of Georgia Pass down French Draw to Breckenridge and then over the 10 mile range between Peak 9 and 10 to the Wheeler Trail and Copper Mountain Ski Area.

After much reconnaissance it was decided that the best route through to Copper Mountain was by way of Swan Valley to Tiger Run. From Tiger Run it crosses the highway and turns north for 1/2 mile on the bike path to Gold Hill trailhead. The Gold Hill Trail intersects the Peaks Trail (built by CMC). At this point one travels south for 1/2 mile on the Peaks Trail to the Miners Creek Trail on the west. Follow the Miners Creek Trail, crossing on a low saddle between Peaks 5 and 6 until the junction with the Wheeler Trail. At this point head north to Copper Mountain. Total distance from Gold Hill to Copper Mountain is 13.8 miles. The trail will be fully signed by next spring.

The reason for the change is mainly to facilitate building a trail on public lands between Georgia Pass and Breckenridge. The French Draw jeep road is ringed with private property, and the road is heavily traveled in the summer. The Swan Valley route has public lands adjacent to the jeep road and in the future it will be possible to build a trail to the north of the drainage.

GOVERNORS MANSION FUND RAISER

The only planned fund raiser for the Colorado Trail took place on October 6 in Denver at a cocktail reception held at the Governors Mansion. Roger Girard, chairman of the committee, recruited volunteers to address invitations and set up the tables. Coors Brewery donated the beer, and McDonalds donated orange juice. Food items and hors d'oeuvres were donated by Nobel-Sysco Food Services, Wyatt's Catering, Hummel's Restaurant and Deli, Blarney Castle Restaurant, Not Just Cookies Bakery, Tico's Mexican Food, Little Caesar's Pizza, and red Seal Products. Morrows Nuthouse, Bea Hill and Chef Leo.

Special thanks go to Roger's family, Irene Cazer, Gudy Gaskill, Bea Collins-Slingsby, Bob Boblett, Dorothy Baker, Celia Nobles and all the others that helped make the reception a success.
CLEAN OUT THE CLOSET!

TRAIL CREWS SEEK EQUIPMENT

This past summer we were able to run four trail crews simultaneously. We have enough equipment to outfit two base camps and half of another. The fourth crew was outfitted by the leader with his personal equipment. We are seeking donations of:

- 2 wall tents
- Large rain tarps
- 5-gal. jerry cans
- Hand crank ice cream freezer
- Buckets
- Basic tool kit
- Block and tackle
- Pressure cooker
- Large cooking pots with lids
- Propane tank
- Cooking utensils, including hand egg beaters, knives, measuring cups, baking pans, can opener, bowls, juice squeezer, salad shredder
- Swedish saw for cutting wood
- Pancake griddle

Veteran leader Dorothy Baker has offered to sew canvas covers for the stoves and to lengthen our two tents so that the sides have 4-foot walls and the tall and short can stand and work in the kitchen tents. John Stonely has offered the use of his Blazer again. Curt Mast has offered his services to repair broken tools. The Fort family from Illinois is donating 100 pounds of BRACHT candy for next year.

CREW MEMBERS RECEIVED MOMENTOS

All crew members received certificates of appreciation from the Friends of the Colorado Trail and Forest Service Districts, plus a certificate of appreciation from the Colorado Mountain Club for their volunteer work. In addition, members working on the Colorado Trail received a Colorado Trail logo on a wooden base, special "I built the Colorado Trail" pins and group pictures of their trail crews.

A Trail Is Born!

CELEBRATION IDEAS NEEDED

With the completion of the main segment of the Colorado Trail scheduled for Sept. 1, 1987 we need to come up with befitting ideas for a grand celebration. A torch marathon run? A BBQ at both ends? A torch carried by horse, bike and hiker-runner? A T.V. documentary of bits and pieces of the trail? If you have any ideas please send them to Friends of the Colorado Trail. Or better yet, volunteer to be on a committee to help co-ordinate ideas and functions.
The Colorado Trail Crew - Weekend Section
1986 Report

Six weekend trail crews were scheduled for Summer 1986 starting in May and ending in September.

The first crew in May consisted of 10 CMC members, about equally men and women, and two South Platte District Rangers. We upgraded a section of the Colorado Trail along Tramway Creek south of road 550. We built over 20 water bars and check dams, filled several gullies with brush and reinstalled a Colorado Trail sign that some 4-wheeler had dug out. We put in a good 6 hours of work and Ranger McNitt was quite pleased.

The next crew was the 21st of June in a section of the Ben Tyler Trail near where it runs into the Colorado Trail 2 miles north of the Lost Creek Road in the South Park Ranger District. Only 4 women signed up, but with Rangers Davis and Witherspoon rigging up a small cart we managed to haul a heavy 14x11x1 foot beam 500 yards up a steep rocky trail and put it firmly in place across Rock Creek. We spent the afternoon hauling brush and timber across a section of trail on the other side of the creek as a barrier to dirt bikers who had been chewing up the steeper section. There was a good 5 hours of hard work, and Ranger Witherspoon sent us all letters of commendation.

The following Saturday, June 28th, a group of 11 Social Section members and myself worked with a South Platte District Ranger to build a parking area/Trail Head for the Colorado Trail at a pull-out 1/4 mile south of where the Trail crosses JeffCo 126. Seven women and 5 men, including myself, dug out 28 1 1/2 foot deep holes in which we placed concrete piers to support 14 railroad tie beams which we drilled out to fit down over threaded studs in the piers. These were secured with nuts and given a coat of redwood stain. It was a good 6 hours of hard labor, which impressed the ranger.

The crew trips scheduled for July, August, and September in the South Park District along Rock Creek had to be scrubbed because of fire fighting in Idaho drawing off Forest Service personnel, leaving too few to support us. I talked to Jerry Davis, the ranger a couple of times and decided we would give it another try next year.

One thing we need to factor in is the Adopt-A-Campground project. Turned out that their schedule coincided with ours which meant sharing volunteer signups. We would like to continue with a regularly scheduled Saturday the third or fourth weekend in each summer month, and, ideally, place our trips at the top of those Saturday activities lists.

Colorado Trail Used for Accredited Course at Western State College

During July and August Western State College at Gunnison held an outdoor classroom on the Colorado Trail. 15 students participated in the course under the leadership of Dr. Hugo Ferchau. The course consisted of two 4-week sessions, the first of which involved orientation to the trail. In the second 4-week session the students backpacked on the Trail from 6-10 miles per day.

While on the trail they studied water quality, water biology, water chemistry, vegetation, wildlife and geology. Data they gathered will be stored on computers to establish an environmental baseline. Subsequent classes will record similar data on water quality, wildlife, etc. and compare their findings with the data gathered this summer so as to be able to detect any changes in the environment on and near the Trail over time. The students received 12 credit hours for completing the course.

We are very pleased to see Western State College provide this learning experience for their students, and we hope other colleges in Colorado develop similar courses.

Membership Form - Friends of the Colorado Trail

All membership fees and contributions to the Friends are tax-deductible, and are used exclusively for the Colorado Trail. Membership fees are: Regular $25.00, Senior and Student $10.00. Make checks payable to Friends of the Colorado Trail.
